## 4. PROPANE SAFETY INSPECTION INFORMATION

A Safety inspection accompanying the installation of the qualifying water heater(s) must include one or more of the following 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations, and/or 3) a flow and lock up test on the regulator(s). The Safety inspection must be performed prior to the submission of any rebate application. The purpose of the Safety inspection is to support the Commission Rebate Program rules and requirements that a safety inspection did occur as required under the rebate program rules and regulations. Licensed contractors can perform safety inspections. DO NOT INCLUDE A COPY OF THE SAFETY INSPECTION REPORT WITH THIS APPLICATION.
